[1]Data are estimates. See the General Explanation in the front of this report for further information and use of number of shipments in sample (shown in the net quantity columns) to determine reliability of estimates.

[2]Arbitrary category established to cover estimated data for low-valued shipments from countries which could not be identified because of illegible reporting on import entries for low-valued shipments.

# EXPLANATION OF REVISIONS

Corrections to the data previously published in the 1965 monthly issues of Report FT 125, in Schedule A commodity by country of origin arrangement, are shown in the following section. These revisions differ in format from those previously shown in that the revisions are given on a current month basis only, whereas revisions have previously been shown on a current and cumulative basis. Although revisions have not been prepared in any other arrangement, such as by commodity groupings, area of origin by commodity or country of origin by commodity, these corrections are applicable to other tables shown in this report. The revisions, however, have been included in all cumulative figures shown in tables 2, 3, and 4 of the December 1965 issue of Report FT 125.
